

CHRIS BUSSELL

1) The first quilt I ever made which was from a pattern in American Patchwork & Quilting with many green batiks and mentored by my friend and fellow member, Sue Lowther. It was an easy pattern but reinforced my love for sewing, quilting and batik fabrics. It's been in our guest room since it was completed.

3) An appliqué quilt for my grandson that I completed a couple of years ago from Edyta Sitar's pattern Sweet Ride. I didn't love doing all the appliqué but I loved how excited my grandson was to get the quilt as it shows his love of cars and the Disney movie Cars.

2) A block of the month quilt that was a class taught through Joann Fabrics by fellow member, Dianna Michelli. This was great for learning lots of different techniques and types of blocks, some of which I enjoyed and others that I figured out that I wouldn't do again.
