

## JACKIE BAILEY

The MSU quilt is the # one project that comes to mind. I created the center after contacting MSU for permission to duplicate the logo. The quilt started out to be a graduation gift for a nephew,; however, after completing the project, I decided it might have a better purpose. My brother and his wife were celebrating their 50th anniversary and have 3 generations of "Spartans" in their family. Since I too attended MSU it was a gift of love. I added borders to make it a queen size quilt.

i designed a quilt for our Granddaughter using her baby clothes. The fairy embroidered borders and center square of the quilt were cut from her crib skirting. Her Mother had beautiful taste in clothing

Number 3 on the list would be the New York Beauty quilt. Elizabeth and I took a class from Karen Stone in Petosky at the Bay View Terrace Inn in 2006. This quilt has hung in our office/laundry room since completion. I love the mix of colors, especially the reds, blacks, and purples. This was my aah-ha moment in color theory.
